SERVICE CO. BOND NOT FORFEITED

The city council last night granted the Public Service corporation, upon the request of Geo. Sanders, its president, two weeks extension of time before taking action toward the forfeiture of the bond of \$1,000 which it had given to support its application for a franchise within the city. A year ago the Public Service corporation was granted a franchise to install an electric light and power service within the city. It entered into a bond of \$1,000 under which it agreed to have two miles of wire within the city carrying current within nine months. The nine months expired in April, and as no move toward the construction of the line had been made, an ordinance was introduced at the previous meeting of the council forfeiting the bond. When the ordinance came up for action at the meeting last night, a letter written by Geo. Sanders, at Salt Lake City, on July 3rd, was read. In this Mr. Sanders asked action on the forfeiture ordinance be delayed till he arrived in the city, stating that he expected to be here during the coming week. He said that as he had previously explained to the council, he had given his time and his funds during the past year toward the establishment of a sugar factory at Grants Pass, and that now he was arranging his personal affairs to further the interests of the Public Service corporation. For the council to press the matter of the bond forfeiture at this time would, he said, be embarrassing to his enterprises, therefore he sought the delay.

The sentiment within the council was pretty evenly divided between proceeding with the passage of the ordinance and granting delay till the next meeting. On roll call, Councilmen Burke, Burkhalter, Demaray and Knipps supported the motion to delay action, while Councilmen Bunch, Herman and Paddock were for immediate action.

The bond given by the Public Service people was by a surety company.

Weighting Instead of Counting.

No longer is it regarded as good management to count uniform pieces one by one in manufacturing plants. Scales especially constructed for the purpose are employed for counting material of like units. Not only is the weighing machine more accurate because it substitutes simple manual operation and the highest degree of mechanical precision for the complicated mental figuring and inaccuracies of other systems, but it counts from 100 to 1,000 per cent faster than the time worn methods.

Hot Game for Sunday—

One of the hottest games of baseball in many a day will be played here Sunday when the home team meets the tossers from Medford. The rivalry between these two teams has become intense, and the manager of each is reinforcing his line-up with men to strengthen any weaknesses that have been developed by the games played thus far. The Grants Pass team has just returned from its trip to Crescent City, where it defeated the crack nine from the coast, while Medford won two of her three contests with Weed at Ashland during the week. As an evidence of the class of ball put up, the last game, the one that Medford failed to win, was won by Weed in 11 innings with a two to one score. Grants Pass will have the strongest team yet brought together under her colors.

He is unfortunate and on the road to ruin who will not do what he can, but is ambitious to do what he cannot.—Goethe.

Ladies Will Entertain—

Several Grants Pass ladies left this morning for Ashland to furnish music at the Chautauqua at that place. Mrs. Will Ireland, Mrs. E. S. Veatch and Miss Augusta Parker will sing as a trio. Miss Berenice Quinlan will accompany the ladies on the piano and will give a piano solo as well. The Ashland Chautauqua opened today and a large number of local people are there attending it.

See the Illinois Valley—

President Robert Twohy, of the Coast railroad, who arrived in the city last night, left this morning accompanied by friends from Spokane for a trip to the Illinois valley. The gentlemen will probably go to the coast before returning. Chief Engineer Geo. W. Boschke also arrived from San Francisco last night and accompanied the party. They are expected to return Sunday evening.

Will Install Slide—

A slide will be installed at the park for the benefit of the swimmers as soon as it can be moved to the river. The slide that will be put there now is the one which was made for the East school, and was loaned for the summer. A larger one will be made on shore as soon as the patronage at the bathhouse increases enough to warrant it. The water has begun to warm up, the temperature being 66.

Hike From Coast—

Two young ladies, Miss Wallace, of Estacada, and Miss Cordella Hill, of the Portland public library, left this afternoon for Ashland, where they will climb Mt. Ashland. They have just arrived from a hiking trip which started at Gold Beach. The first part of the trip was up Rogue river and then to Eden valley. From here they went to Illinois valley points and finally to the caves. The trip has covered over 200 miles, and although the girls pack all their provisions and blankets, they appear to be enjoying the outing to a great extent.

The Suicide of Hannibal.

Defeated at Zama, Hannibal fled to the east to avoid falling into the hands of the Romans and found temporary security in the dominions of Mithridates. He incited this monarch to engage in a Roman war, and, his advice as to its conduct being rejected, the war proved unsuccessful, and Mithridates was required as one of the conditions of peace to deliver up Hannibal to his enemies, the Romans.

The unfortunate Carthaginian heard of his approaching fate, swallowed the poison which for years he had carried, about his person and expired just as the envoys arrived to take him away as a prisoner.

ATLANTIC CITY GIRLS MUST WEAR MORE CLOTHES

Atlantic City, N. J., July 7.—Summer maids, with dimpled knees, must stop parading the beach in chorus girl aquatic costumes. This was the order handed down, the first reform edict of the season, and today the mackintosh man is saving the modesty of the conservative. Daily processions of pretty girls in abbreviated "surf attire" have been stopped and blushing cops have been appointed censors of beach raiment. Coming from the department of public safety, the order is regarded as sinister.

TROUBLES QUIET IN SAN DOMINGO

Washington, July 7.—United States marines expected to enter Santiago, San Domingo, last night or this morning, without opposition, a radio message to the navy department today from Admiral Caperton said. Dominicans were reported quiet. The navy department believes there will be no more fighting.

MARGARET WARD'S DEATH CAUSES ARREST OF 10

Boston, July 7.—Twenty-two persons, including ten now under arrest, will appear before the grand jury when the probe into the mystery surrounding the death of Miss Margaret Ward begins today.

Little progress has been made in the case since the arrest of the six men in an automobile in Salem Wednesday morning with the body of the dead woman in the car. The men continue to declare that the woman was alive when taken from the Warren street house in Roxbury, but the police claim they have evidence that will show death occurred at least twelve hours before that time.

DAVID LLOYD-GEORGE NOW SECRETARY OF WAR

London, July 7.—King George received David Lloyd-George in audience today and handed him the seals of the secretaryship of war. Lloyd-George assumed his new office this afternoon.
